RHODODENDRONS.

We have a large assortment of collected specimens of the native varieties, which we strongly recommend for this locality.

R. carolinianum.

R. Catawbiense.

R. maximum.

Plants of the above varieties, 2 to 6 ft., ranging in price from \$2.00 to \$15.00. We have a limited number of the Hybrid varieties, prices of which will be quoted on application.

Note:—After the flowering season the seed-pods should be removed to permit the strength of the plant to go toward the formation of flower buds for the next season.

DECIDUOUS ORNAMENTAL AND SHADE TREES.

(The trees that lose their leaves in winter.)

Our shade and lawn trees are well grown, transplanted specimens, dug with strong fibrous roots, and should not be compared with untransplanted stock offered at lower prices. We cannot too strongly impress upon intending purchasers the importance of the proper preparation of the ground before planting.
